Daler Arabov

Media artist, engineer and system designer

Creates real-time systems, generative environments and interactions with neurointerfaces. Within ODA.dream, he connects an artistic visual language with sensor and custom-software architecture, the preparation of stage or exhibition configurations and their operation during a presentation.

Practice

Generative environments, interactive installations, stage systems and artistic-interface prototyping. He connects software, sensors and a visual language with preparing and operating a system during a presentation.

Education and professional background

Studied electronic-equipment design and technology at Bauman Moscow State Technical University. Taught technical creativity, supervised graduation projects and founded FabLab TSEKH-4 at BMSTU.

Additional training

2014: MATLAB Fundamentals, an interior-design workshop at BHSAD and laser-equipment training. 2016: LPKF Rapid Prototyping and Brüel & Kjær vibration testing; MTCNA awarded in 2016 (historical, valid for three years). 2018: KAIZEN seminars in production flow, structured problem solving and Lean Foundation.

Documented personal credits

2018: acknowledgement for initiative in regional projects; finalist with the Tree of Knowledge team in Hackathon 2025 (held in 2018). 2021: BMSTU letter confirms graduation in 2011 and employment in 2011-2019. 2024: speaker acknowledgements from Tech Week and Code of the Province. 2025: Moscow 2030 acknowledgement and documented participation in Commission for the Year Three Thousand.
