Daler Arabov

Media artist, engineer and system designer

Creates real-time systems, generative environments and interactions with neurointerfaces. Within ODA.dream, he connects an artistic visual language with sensor and custom-software architecture, the preparation of stage or exhibition configurations and their operation during a presentation.

Practice

Generative environments, interactive installations, stage systems and artistic-interface prototyping. He connects software, sensors and a visual language with preparing and operating a system during a presentation.

Education and professional background

The CYENS biography records an engineering degree in electronic-equipment design and technology at Bauman Moscow State Technical University, teaching technical creativity, supervising graduation projects and founding FabLab TSEKH-4 at BMSTU. Exact periods are not provided by the source.
